Backup Government FTI Satellite Internet Service

PURPOSE: To provide FTI Satellite Internet customers a cost effective Internet service that can be used when the primary Internet service is interrupted, disconnected or reaches its limitation of service.

- ***NO INTERNET SERVICE BILLING REPORTING REQUIREMENTS!***
- ***NO EXCESS USAGE FEES!***
- ***\$200 Minimum Service Charge Per Month***
- ***Additional charges are restricted solely to actual "use" for data transfer.***
 - The monthly charge for actual "Use" of satellite broadband data is calculated using the following method:
 - The greater of the \$200 minimum service charge or the total amount of download data transfer measured in Mbytes multiplied by \$.02 PLUS the total amount of upload data transfer measured in Mbytes multiplied by \$.04.
- ***BASIC FTI Satellite Internet Equipment Package Required.***
 - Use of SatLink Trailer or equivalent; or
 - Setup Fees
 - \$.50 per mile delivery fee (round trip)
 - \$600 Setup Fee (2 men one day)
 - Maintaining an appropriate satellite router (modem) with the ability to connect to the FTI satellite network. The basic equipment package includes:
 - 2.4m C or C/Ku band antenna or larger
 - If existing C band TVRO, then 1.2m Ku band transmit antenna or larger
 - 4W Ku band Block Upconverter
 - Phase Stable (Digital) C band LNB
 - iDirect iINFINITY satellite router
 - 10/100/1000 Managed Ethernet Switch
 - Automatic Network Manager 10 mbps (> 50 Subscribers)
 - Local Proxy/Cache Server (> 50 Subscribers)
 - Local Email Server (>50 Subscribers)
