Home and Office Billing Plans

- **Plan A (Per Computer/CPE)**
 - \$50 per month per computer with the Internet Service
 - \$1.67 per computer per day
 - 3 GBytes of download and 300 Mbytes of upload data monthly
 - \$.20 per MByte for use greater than this allowance
 - \$8 per site per month for Triple Defense Encryption Standard Service License

- **Plan B (Per MByte).**
 - *Fixed Rate Plan*
 - 12 month minimum agreement term with increments of one year
 - Customer declares average download and upload per month [Gbytes] without minimum or maximum limitations
 - Billed at discounted rate for committed download & upload volume
 - Total amount of download data transferred measured in Mbytes multiplied by \$.01 PLUS
 - Total amount of upload data transferred measured in Mbytes multiplied by \$.02.
 - Fair Access Policy (FAP) actions will be initiated as per the customer option when the month to date daily average exceeds the declared monthly commitment:
 - Option A: Reduced data transfer rate to 56kbps download/16kbps upload until such time that the average usage is consistent with the declared monthly commitment
 - Option B: Option of paying for the accumulated FAP data at a rate of \$.20 per Mbyte at the end of the month (Excess Usage Fee)
 - Option C: Option to Roll Over unused Mbytes into a bank of unused Mbytes. FAP condition will utilize banked Mbytes rather than incur either a network data rate decrease or charges until such time that the banked Mbytes have been completely used at which time FAP charges of \$.02 for download Mbytes and \$.04 for upload Mbytes will apply

- **Plan C (Metered Rate)**
 - No Minimum Charge
 - No Excess Usage (FAP) Fees
 - Only charges for actual "use" of data transferred. Monthly charge for actual use of satellite broadband data is calculated using the following method
 - Total amount of download data transferred measured in Mbytes multiplied by \$.01 PLUS
 - Total amount of upload data transferred measure in Mbytes multiplied by \$.02
